

G-FOCUS

Management Information System

Supported by OpenBook (Agresso) and Boss, G-Focus is our bespoke management information system, providing intelligent reporting, back office and accounting systems.

G-FOCUS is a bespoke Management Information system which provides a vast suite of reports giving us and our clients the ability to measure travel patterns, identify potential cost savings and monitor travel policy compliance.

We can produce the following reports which you can access online:

With one simple request, G-FOCUS allows the search air, car, cruise, hotel and rail reservations for many data needs. Pre-trip and three years of historical data are available. Reports can be used to provide information on top O&D, group opportunities, and many other needs.

Whether managing your travel policy compliance is the goal or adhering to corporate social responsibility legislation, G-FOCUS provides the information you need; at your fingertips.

We can produce the following reports which you can access online:

- Executive Summary
- Full travel summary
- Airline Expenditure
- Specific carrier
- Hotel summary
- Monthly savings summary
- Car rental summary
- Top Suppliers
- Top 10 Traveller's
- Top City Pairs
- Travel by Department
- Billable/Non-billable
- CO2 Report
- Star Alliance Plus Scheme Ticketing Report
